

Dipl.-Ing. Richard Knoll
Project Engineer Structural Engineering

To expand our team we are looking for **CAD Engineer Facade Panning (m/f/x)**

Location: Vienna

Our offer

- The chance to play an active part in planning a sustainably designed environment
- Challenging assignments in an office with a team-based, interdisciplinary structure
- A permanent contract with long-term future prospects
- Opportunities for personal development and advancement within a global network
- Climate-friendly transport incentives (e.g. company bicycles)
- An office in an attractive location with excellent public transport links
- Good teamwork, good working atmosphere and several annual team events

Your responsibilities

- Development of sophisticated and customised project solutions in the facade area
- Creation of CAD drawings
- Consideration of architectural and functional requirements as well as technical and physical constraints

Your profile

- You'll have successfully completed your training (e.g. HTE (structural engineering) or comparable) or successfully completed studies (civil engineering, architecture or comparable)
- You'll have first professional experience
- You'll have a good knowledge of AutoCAD, ideally also Athena
- You have a very good command of German and English
- You have good communication skills and the ability to work in a team

Werner Sobek is internationally synonymous with engineering, design, and sustainability. Our company is home to more than 400 employees and is represented on several continents. Our work is renowned for exceptional design based on outstanding engineering and integral concepts that minimise the consumption of energy and materials.

We look forward to receiving your application along with an indication of your salary expectations and your preferred starting date. If you have any questions, please do not hesitate to get in touch
