

Oliver Göbel  
CIO IT

## To expand our team we are looking for a **Deputy IT Manager / Head of Infrastructure (m/f/x)**

Location: Germany (Stuttgart)

### Our offer

- The chance to play an active part in planning a sustainably designed environment
- Challenging assignments in an office with a team-based, interdisciplinary structure
- A permanent contract with long-term future prospects
- Opportunities for personal development and advancement within a global network
- Climate-friendly transport incentives (e.g. company bicycles and travel tickets)
- An office in an attractive location with excellent public transport links
- Contribution to the pension plan, sporting activities and several annual team events

### Your responsibilities

- Professional leadership of the Infrastructure and Services areas
- Central operation and maintenance of application systems, IT infrastructure, and TC
- Alignment of the IT department with the company's growth and integration of global subsidiaries
- Management and control of external service providers
- Design and expansion of IT security for approximately 500 IT workstations
- Optimization of virtualized servers, storage, and IT infrastructure, including TC
- Development and advancement of an IT strategy
- Direct reporting to the CIO

### Your profile

- You've successfully completed your studies in Business Informatics, Computer Science, Business Administration, or a related field and/or several years of professional experience as an IT team leader or in IT project management at a larger company or consulting firm
- You have experience in IT management for software/hardware projects, both technically and commercially
- You have knowledge of VMware and are proficient in working with all current Windows Server versions
- You have in-depth expertise in ERP systems, ideally Microsoft Business Central
- You possess the aptitude, competence, and initial experience in staff leadership
- You are a strong communicator with a service-oriented mindset

Werner Sobek is internationally synonymous with engineering, design, and sustainability. Our company is home to more than 450 employees and is represented on several continents. Our work is renowned for exceptional design based on outstanding engineering and integral concepts that minimise the consumption of energy and materials.

We look forward to receiving your application along with an indication of your salary expectations and your preferred starting date. If you have any questions, please do not hesitate to get in touch.
